

DIRECT UNATTENDED CREMATION

Unattended cremation is also known as, direct cremation, simple cremation or pure cremation. An unattended cremation differs from normal cremations in that there is no service and no family or friends in attendance. Some families will organise a memorial service at a later stage in order to remember the life of the deceased.

Our approach to direct or pure cremations is quite different from what is commonly offered. This is because we believe in treating the deceased with the same respect and ceremony that we strive to achieve for all our funerals.

Our charges for this service is £1595.00*
